

Neil Z. Miller (Bio)

Neil Z. Miller is a medical research journalist and the Director of the *Thinktwice Global Vaccine Institute* (www.thinktwice.com). He has devoted the past 30 years to educating parents and health practitioners about vaccines, encouraging informed consent and non-mandatory laws. He is the author of several articles, studies, and books on vaccines, including *Miller's Review of Critical Vaccine Studies* (www.vacbook.com), *Vaccine Safety Manual for Concerned Families and Health Practitioners* (updated 2nd edition), and *Vaccines, Are They Really Safe and Effective?* Past organizations that he has lectured for include the International Chiropractic Pediatric Association, the International College of Integrative Medicine, the Hahnemann Academy of North America, and the Culture of Life Institute. Mr. Miller has a degree in psychology and is a member of Mensa.

Mr. Miller began his crusade against mandatory vaccines when his wife was pregnant with their first child. Very little data could be found on this topic. His search for the truth led him to scientific journals where numerous studies warned that vaccines are often unsafe and ineffective. His shock and anger at the suppression of this information culminated in his passionate defense of parents seeking to make truly informed vaccine decisions while retaining the right to accept or reject them.

Despite the many problems revealed in Mr. Miller's research, he never tells parents to reject the shots:

There is a large body of scientific evidence confirming numerous vaccine safety deficits that counteract well-publicized benefits. For example, several studies show that mercury and aluminum in vaccines can cause neurological, immunological, and developmental harm. Other studies show that childhood vaccines are associated with an increased risk of cancer, allergies, seizures, bleeding disorders, and type 1 diabetes. That is why I am opposed to mandatory vaccines. I do not recommend for or against the shots. I want everyone to think through this enigmatic and controversial subject on their own. I believe that parents are capable of obtaining the facts and making knowledgeable choices regarding the care and welfare of their children.

Mr. Miller has publicly debated the pros and cons of mandatory vaccines with several pediatricians and other health practitioners, including the chief medical epidemiologist for the National Immunization program at the Centers for Disease Control and Prevention (CDC). He conducts lectures throughout the world and is available to discuss his research on vaccines.

Curriculum Vitae, Neil Z. Miller
Santa Fe, NM 87504 / think@thinktwice.com

Work

Medical Research Journalist, self-employed (1984-Present)
New Atlantean Press, Owner/Publisher (1992-Present)

Education

College of Santa Fe, 1990, Bachelor's Degree in Psychology

Professional Affiliations

Institute of Medical and Scientific Inquiry, **Founder and Director** (since 2016)
Thinktwice Global Vaccine Institute, **Founder and Director** (since 1996)
Foundation for Health Choice, **Scientific Advisory Board Member** (2002-2012)

Professional Papers/Studies

- Vaccines and sudden infant death: an analysis of the VAERS database and review of the medical literature.
Published in *Toxicology Reports* (2021)
- Health effects in vaccinated versus unvaccinated children, with covariates for breastfeeding status and type of birth.
Published in *Journal of Translational Science* (2021)
- Analysis of health outcomes in vaccinated and unvaccinated children: developmental delays, asthma, ear infections and gastrointestinal disorders. Published in *Sage Open Medicine* (2020)
- Aluminum in childhood vaccines is unsafe. Published in *J of American Physicians and Surgeons* (2016)
- Combining childhood vaccines at one visit is not safe. Published in *J of American Physicians and Surgeons* (2016)
- First do no harm: scientific evidence implicating allopathic vaccination.
Published in *Homeopathic Links, International Journal for Classical Homeopathy* (2016)
- Relative trends in hospitalizations and mortality among infants by number of vaccine doses and age.
Published in *Human & Experimental Toxicology* (2012)
- Infant mortality rates regressed against number of vaccine doses routinely given: is there a biochemical or synergistic toxicity? Published in *Human & Experimental Toxicology* (2011)
- The polio vaccine: a critical assessment of its arcane history, efficacy, and long-term health-related consequences. Published in *Medical Veritas* (2004)

Professional Advisory

Consultant to various legal teams and organizations promoting health freedom and vaccine choice (2012-2021)
Kelly Sutton, MD. Editor/Consultant (2016)
Diseases and Conditions Following Vaccines, and Associated Concepts
Birthing the Future. Advisor/Participant (2010), *New Paradigm for Birth & Social Health*
Gerald Myers, PhD. Consultant (2010), *Hepatitis B and HIV/AIDS Link*
Opposing Views. Verified Vaccine Expert (since 2008)
BizyMoms. Certified Vaccine Expert (since 2008)
Public Affairs Media, Inc. Consultant (2009); *Vaccine Documentary*
Tedd Koren, DC. Advisor (2009); *Stop the Shot (Swine Flu) Petition*
Gabriel Cousens, MD. Advisor (2009); *H1N1 (Swine Flu) Petition*
Alan Phillips, JD. Advisor (2009); *Pandemic Response Project*
Martin Goldstein, DVM. Consultant (2009); *Tetanus Case*
Vaccine Information Coalition. Consultant (2008); *Disease Death Rates*

Personal

Married, two children (who were born at home and not vaccinated).

Lecture Endorsements:

Dear Neil,

Thank you for being a part of the 2021 Holistic Mama Summit. I'm so grateful you came to share your passion, message, and wisdom with all these amazing mamas and for focusing on what matters most. You are truly a gift to humanity!

—Becky Wells, Summit Organizer

Dear Mr. Miller,

Thanks for everything. You were a fantastic presenter!

—Kate Fisher, Seminar Organizer, *Bio-Ag Distributors*, Ontario, Canada

Dear Mr. Miller,

Congratulations, you received the highest rating possible of A+ by our attendees. Only two physicians received this mark. You rated higher than a Nobel Nominee and the No 1 Oral Pathologist in the world!

—Dr. William Faber, Conference Organizer, *International College of Integrative Medicine*, Buffalo NY

Dear Neil,

It was special to have you as a presenter at the Tree of Life Masters Intensive Conference. I greatly appreciate your work and commitment to your dharma, as well as your wisdom.

—Gabriel Cousens, MD, Director, *Tree of Life Center*, Patagonia, AZ

Dear Neil,

At the conclusion of your presentation, from my seat in the front row, I had no idea what the audience was thinking until the lights came on and you got a standing ovation. More significant than their appreciation, I feel you got your message across! Thank you for all your knowledge and for sharing it.

—Kimberley Heidler, Conference Organizer, *Pennsylvania Natural Living Association (PANLA)*, Reading, PA
